Engineering Technology Stream
Mahinda Rajapaksa Collage - Matara

Projects

● **Hostel Management System**

A desktop application built in hibernate to manage students and room management and bookable student hostel.

Technologies Used - Hibernate , Java , JavaFX , MySQL

Link - d24 Hostel Management System

● **RestoRise Web site**

A website I created for a restaurant located in Aluthgama. It also manages navigation and vehicle details. I used html, css and javascript for that

Technologies Used - HTML , CSS , Javascript

Link - RestoRise
